Please find below and/or attached an Office communication concerning this application or proceeding.

	Application No.	Applicant(s)					
	10/600,446	JIANG ET AL.					
Office Action Summary	Examiner	Art Unit					
	Shobha Kantamneni	1617					
The MAILING DATE of this communication app Period for Reply	ears on the cover sheet with the c	orrespondence address					
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.  - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.  - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.  - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).							
Status							
1) Responsive to communication(s) filed on							
	action is non-final.						
3) Since this application is in condition for allowar		secution as to the merits is					
closed in accordance with the practice under <i>Ex parte Quayle</i> , 1935 C.D. 11, 453 O.G. 213.							
Disposition of Claims							
4)⊠ Claim(s) <u>1-71</u> is/are pending in the application.							
	4a) Of the above claim(s) is/are withdrawn from consideration.						
5) Claim(s) is/are allowed.							
6) Claim(s) is/are rejected.							
7) Claim(s) is/are objected to.	_						
8) Claim(s) 1-71 are subject to restriction and/or	election requirement.						
Application Papers							
9) The specification is objected to by the Examiner.							
10) The drawing(s) filed on is/are: a) accepted or b) objected to by the Examiner.							
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).							
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).							
11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.							
Priority under 35 U.S.C. § 119							
12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).  a) All b) Some * c) None of:							
<u> </u>							
	2. Certified copies of the priority documents have been received in Application No						
3. Copies of the certified copies of the priority documents have been received in this National Stage							
application from the International Bureau	application from the International Bureau (PCT Rule 17.2(a)).						
* See the attached detailed Office action for a list of the certified copies not received.							
Attachment(s)							
1) Notice of References Cited (PTO-892)	4) Interview Summary						
2) Notice of Draftsperson's Patent Drawing Review (PTO-948) 3) Information Disclosure Statement(s) (PTO-1449 or PTO/SB/08)	Paper No(s)/Mail Da 5) Notice of Informal P	ite atent Application (PTO-152)					
Paper No(s)/Mail Date	6) Other:	F					

## **DETAILED ACTION**

This Office Action is in response to the application filed on 06/20/2003. Claims 1-71 are pending.

## Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claim 1 (in part), 2-11, 27-31 drawn to a method for the treatment of protozoan infections comprising administering a quinazolinone compound, wherein the quinazolinone compound is febrifugine/iosfebrifugine, and compound of structure as in claim 27, classified in class 514, subclass 247, 256.
- Claim 1 (in part), 12-26, and 32-36 drawn to a method for the treatment of protozoan infections comprising administering a quinazolinone compound, wherein the quinazolinone compound has one or more halogen substituents, i.e compounds of structures as in claims 12, 17, 22, 32, classified in class 514, subclass 247, 256, 743, 757.
- Claim 1 (in part), 37-56 drawn to a method for the treatment of protozoan infections comprising administering a quinazolinone compound, wherein the quinazolinone compound has a 5-membered ring with 2 oxygen atoms, i.e compounds of structures as in claims 37, 42, 47, 52, classified in class 514, subclass 461, 463, 464.
- IV Claim 1 (in part), 57-61 drawn to a method for the treatment of protozoan infections comprising administering a quinazolinone compound, wherein

the quinazolinone compound has structure as in claim 57 i.e compound WR089904, classified in class 514, subclass 463, 506.

V Claim 1 (in part), 62-71 drawn to a method for the treatment of protozoan infections comprising administering a quinazolinone compound, wherein the quinazolinone compound has structure as in claims 62, and 67 i.e compounds WR088442, and WR059424, classified in class 514, subclass 247, 256, 506.

Inventions I-V are unrelated to each other. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP 806.04, MPEP 808.01). In the instant case the inventions are separate and distinct each from the other because the compounds of Groups I-V differ by a significant structural feature, having different formula, which are classified in different subclass of class 514, for example the compound febrifugine is classified in subclass 247, 256, and the compounds with a 5-membered ring containing 2 oxygen atoms are classified in subclass 461, 463, 464.

Given the fact that chemical compounds that are not similar in structure have different physical, chemical, biological and physiological properties or activities, the instant compounds are deemed to have different modes of operation, different functions, and different effects.

Moreover, the search for inventions of Groups would place an undue burden on the Office because of their separate classification crossing class 514. It is noted that for example a reference to one quinazolinone compound would not be a reference to another quinazolinone compound, wherein a 5-membered ring with two heteroatoms is present on the quinazolinone compound under 35 U.S.C. 103(a).

The above inventions differ as distinct therapeutic methods, and therapeutic preparations. The grouped inventions are patentably distinct, a reference which would anticipate, or make obvious, any inventions from groups I-V would not necessarily obviate or anticipate, the inventions in any other group. The searches are not coextensive as indicated by the diverse nature of the subject matter. The search for all inventions would place an undue burden on the office in view of the diversity of treatment methods and the corresponding diversity in the field of search for each. Note that the search involves both patent and non-patent literature.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one or more claim remaining in the application. Any amendment of inventorship must be

Application/Control Number: 10/600,446 Page 5

Art Unit: 1617

accompanied by request under 37 CFR 1.48(b) and by fee required under 37 CFR 1.17(i).

A telephone call to the applicant's agent to request an oral election was not made, due to the complexity of the restriction.

## Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shobha Kantamneni whose telephone number is 571-272-2930. The examiner can normally be reached on Monday-Friday, 8am-5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sreeni Padmanabhan can be reached on 571-272-0629. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
